He was the youngest son of Major Charles Frederick Napier, Royal Artillery. of Major Charles Frederick Sapier, Royal Arthury, who died in 1812. Lord Napier was educated at the Military College, Addiscombe, and entered the corps of Bengal Engineers in 1827. In the Sutlej campaign he greatly distinguished himself. He was the senior intention to reduce the cattle-rate to 12 1-2 cents per 100 pounds from Kansas City to Chicago, and prolate in the afternoon session when the Alton's proengineer at the slege of Mooltan, and after the reducposal to make a rate of 12 1-2 cents on cattle and 18 1-2 cents on dressed beef was brought up. Promoted to the rank of colonel in 1854, he was for some years encommercial highways, canals, barracks and public buildings. When the mutiny of 1857 broke out he was Chief Engineer of Bengal, and it was he who at the siege of Lucknow planned those operations which resuited in the defeat of the enemy. When the expe-dition against China was organized under Sir Hope Grant, Colonel Napler was second in command. For his services in this capacity he was made a majorgeneral, a Knight Commander of the Order of the Bath, and a military member of the Council of India.

In 1865 he succeeded Sir William Mansfield as Commander in Chief at Bombay. He held this post, with the local rank of lientenant-general, for two years, when Lord Derby selected him as the commander of the expedition for the rescue of the prisoners seized by King Theodore of Abyssinia. For the first time in history one of the most hazardous and difficult expeditions ever planned was brought to a successful termination without the loss of a single man of the British forces. For his services during this campaign Lord Napier was raised to the peerage in 1888, and was made a lientenant selectal, a G. C. S. L. and was appeinted to the command of the army of Bombay. He afterward succeeded Sir Fenwick Williams as Governor and Commander in Chief at Gibruliar.
